

PROJECT CHARTER FOR MEDIA LOCATOR APPLICATION

GENERAL PROJECT INFORMATION	
PROJECT NAME	Media Locator Application
PROJECT CHAMPION	Isaac Oselukwue
PROJECT SPONSOR	Isaac Oselukwue
PROJECT MANAGER	Isaac Oselukwue
STAKEHOLDERS	Francesco Del Duchetto, Abimbola Sangodoyin
EXPECTED START DATE	29 th January, 2025
EXPECTED COMPLETION DATE	8 th May, 2025

PROJECT DETAILS	
EXECUTIVE SUMMARY	Media-Locator app is an innovative application which will be built to facilitate the searching and viewing of open-license media such as images and audio. It will enable our users to easily locate and access freely and openly available content. We would build a simple and easy to use application with search functionality implemented. We will enable users to have a saved search history so that they can continue viewing where they stopped.
AUTHORIZATION	I [Isaac Oselukwue] the project sponsor authorises the agile team to proceed with the Media Locator Application as described in this document. The support for resources, scope clarity and would lie on me and I commit to the success of this project.
OBJECTIVES	<p>The following objectives will drive this application:</p> <ol style="list-style-type: none">1. The application is easy to use and understand. Navigating and utilising features are quite easy.2. Users' data is securely stored and passwords are hashed with highest level of hashing algorithms.3. Agile model of project management is followed ensuring we have timely and iteratively usable application at every sprint.4. Application is fully testable and each feature shipped contains sufficient tests.5. Integration with an ethical media provider and terms of use is provided to users

EXPECTED BENEFITS	<p>The expected benefits are as follows:</p> <ol style="list-style-type: none">1. The application will simplify the search process for open media leading to a faster content discovery for users without worrying about licensing issues.2. It will attract appeal from open-source contributors who are looking for royalty-free media.3. Students and educational institutions will benefit from the open-source media for educational purposes.4. It will enhance visibility of the application as the one-stop shop for open access media.																											
SCOPE	<p>This application will be a web-based application with options for mobile to come later.</p>																											
MILESTONES	<table><tr><th>Iteration</th><th>Milestone Name</th><th>Deliverable</th><th>Completion Date</th></tr><tr><td>1.</td><td>User flow diagram and mock-up</td><td>User flow diagrams, wireframes</td><td>14th Feb, 2025</td></tr><tr><td>2.</td><td>Backend Development</td><td>Backend code ready for testing</td><td>13th March, 2025</td></tr><tr><td>3.</td><td>Frontend Development</td><td>Frontend ready for testing</td><td>8th April, 2025</td></tr><tr><td>4.</td><td>Integration and testing</td><td>Integration of frontend to backend, setup of tests and ensuring working as expected.</td><td>24th April, 2025</td></tr><tr><td>5.</td><td>Pre-deployment setup</td><td>App containerization, docker compose setup, database migrations and pre-deployment readiness.</td><td>7th May, 2025</td></tr></table>				Iteration	Milestone Name	Deliverable	Completion Date	1.	User flow diagram and mock-up	User flow diagrams, wireframes	14 th Feb, 2025	2.	Backend Development	Backend code ready for testing	13 th March, 2025	3.	Frontend Development	Frontend ready for testing	8 th April, 2025	4.	Integration and testing	Integration of frontend to backend, setup of tests and ensuring working as expected.	24 th April, 2025	5.	Pre-deployment setup	App containerization, docker compose setup, database migrations and pre-deployment readiness.	7 th May, 2025
Iteration	Milestone Name	Deliverable	Completion Date																									
1.	User flow diagram and mock-up	User flow diagrams, wireframes	14 th Feb, 2025																									
2.	Backend Development	Backend code ready for testing	13 th March, 2025																									
3.	Frontend Development	Frontend ready for testing	8 th April, 2025																									
4.	Integration and testing	Integration of frontend to backend, setup of tests and ensuring working as expected.	24 th April, 2025																									
5.	Pre-deployment setup	App containerization, docker compose setup, database migrations and pre-deployment readiness.	7 th May, 2025																									
SUCCESS METRICS	<p>To evaluate its success, we would track the following:</p> <ol style="list-style-type: none">1. > 95% test coverage with 98% passed2. Compatibility across all popular browsers.3. Adoption rate of users across the app.																											

ESTIMATED COST & RESOURCES	<p>We anticipate zero costs for development and minimal costs for application hosting and build.</p> <ol style="list-style-type: none"> 1. Development costs: £0 2. Hosting and deployment costs: £0 3. User Support: £0
DATE	28 th January, 2025
